

Instructions for mounting
The ZBH101/102

1. First unpackage the X-H8 X-hat holder

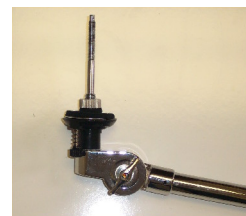

2. Next remove the top wing nut from the X-H8

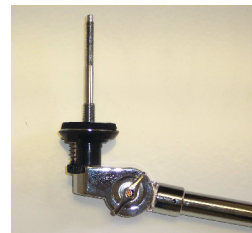

3. Remove the top washer, cymbal sleeve, and felts

4. Remove the spring

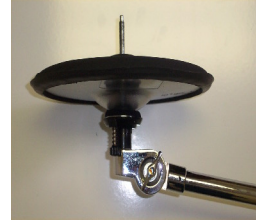

5. Remove the bottom nut and small cymbal felt
(leaving the large cymbal felt)

Instructions for mounting
The ZBH101/102
Continued

6. Place ZBH101/102 onto the X-H8

7. Take the plastic cymbal sleeve with one felt on it and invert it. Place it on the X-H8 and insert the long end into the top of the ZBH101/102

8. Place the wing nut back on top of the X-H8 and adjust for desired tension

*****You may feel free to discard the remaining parts, as they will not be used*****
